This report on our examination consists of the Comments, Condition of Records, Recommendations and Certification that follow.

CONDITION OF RECORDS

Our review of the Joint Committee on Legislative Management and other Legislative Commissions found areas for disclosure as described in the following:

Reporting and Meeting Requirements:

Criteria: Section 46a-131a of the General Statutes states that The Commission on Children shall develop, within available appropriations, an annual social health index report.

Section 3(c)(1) of the Joint Rules stipulate there should be 33 members on the Joint Committee on Legislative Management and that a majority of the membership constitutes a quorum. Binding action should not be taken without a quorum present.

Section 2-87, subsection (7), of the General Statutes states that the Law Revision Commission shall submit an annual report to the General Assembly and Section 2-110, subsection (b), of the General Statutes requires the Commission on Innovation and Productivity to recommend innovations for the improvements of cost-effectiveness and efficiency, among other service objectives, in State Government.

Condition: The Commission on Children did not develop an annual social health index report as appropriations were not available as they had been in prior years.

The Joint Committee on Legislative Management operated with 30 members during the period under review. The Committee took binding action in three meetings with less than the majority being present.

The Law Revision Commission did not submit annual reports as required and the Commission on Innovation and Productivity, it appears, has never met or filed annual reports since being established in 1993.

Effect: Commissions whose boards do not comply with reporting, meeting and other requirements may be unable to effectively meet their legal mandates set forth in the General Statutes.

Cause: Appropriations were not available for a social health index report, the Joint Rules may need updating and may not have been followed by the Joint Committee on Legislative Management, and the Law Revision Commission and the Commission on Innovation and Productivity were not active during the audited period.
**Recommendation:** The Joint Committee on Legislative Management and other Legislative Commissions should comply with all meeting, reporting and other requirements or determine whether appropriate changes are necessary. (See Recommendation 1.)

**Agency Response:** The Agency opted not to respond.

**Valuation of Buildings:**

**Criteria:** The value of State buildings under the authority of the Joint Committee on Legislative Management should be accurately reported to the State Comptroller.

**Condition:** The Office of Legislative Management failed to properly adjust the building values to reflect an inflationary increase. It has recalculated the values for the fiscal years ended June 30, 2006 and 2007, and has notified the State Comptroller of the corrections.

**Cause:** The process to accumulate information was insufficient to ensure accuracy.

**Effect:** Certain items were not recorded correctly on the State’s inventory.

**Conclusion:** The Office of Legislative Management corrected the records and improved its process to record the values of the buildings accurately; therefore, we will not recommend they take any further action at this time.
Our prior audit report on the Joint Committee on Legislative Management for the fiscal years ended June 30, 2004 and 2005, contained three recommendations. Of the three recommendations, two have been resolved and one has been repeated.

Status of Prior Audit Recommendations:

- Legislative Commissions should comply with all meeting and reporting requirements or the appropriate changes should be requested. All active commissions made improvements in this area; however, concerns still exist for certain commissions, including those not active during the period under review. This recommendation is repeated as Recommendation 1.

- The Latino and Puerto Rican Affairs Commission should follow established procedures for cash receipts, commit all exchange agreements to writing, and comply with Section 4-32 of the General Statutes. This area showed improvement since our last audit and this recommendation will not be repeated.

- The Joint Committee on Legislative Management should ensure all inventory, including historical artifacts, is accounted for completely and accurately. We noted that historical artifacts were addressed and that certain other conditions mentioned earlier in this report were also corrected. This recommendation will not be repeated as appropriate action was taken.

Current Audit Recommendations:

1. The Joint Committee on Legislative Management and other Legislative Commissions should comply with all meeting, reporting and other requirements or determine whether appropriate changes are necessary.

Comment:

The Committee and other Commissions did not appear to always comply with all meeting and reporting requirements.
CERTIFICATION

As required by Section 2-90 of the General Statutes, we have audited the books and accounts of the Joint Committee on Legislative Management for the fiscal years ended June 30, 2006 and 2007. This audit was primarily limited to performing tests of the Agency's compliance with certain provisions of laws, regulations, contracts and grant agreements and to understanding and evaluating the effectiveness of the Agency's internal control policies and procedures for ensuring that (1) the provisions of certain laws, regulations, contracts and grants agreements applicable to the Agency are complied with, (2) the financial transactions of the Agency are properly initiated, authorized, recorded, processed, and reported on consistent with management’s direction, and (3) the assets of the Agency are safeguarded against loss or unauthorized use. The financial statement audits of the Joint Committee on Legislative Management for the fiscal years ended June 30, 2006 and 2007, are included as part of our Statewide Single Audits of the State of Connecticut for those fiscal years.

Because we are not organizationally independent with respect to the Joint Committee on Legislative Management, our audit was not performed in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. However, we did apply the field work standards for financial audits in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Joint Committee on Legislative Management complied in all material or significant respects with the provisions of certain laws, regulations, contracts and grant agreements and to obtain a sufficient understanding of the internal control to plan the audit and determine the nature, timing and extent of tests to be performed during the conduct of the audit.
CONCLUSION

In conclusion, we wish to express our appreciation for the cooperation and courtesies extended to our representatives by the personnel of the Joint Committee on Legislative Management during this examination.
